Math Supplies

Please bring in your supplies by
Monday, September 12.

Student Supplies:

- 1 2-inch 3-ring binder with pockets
- 5 tabbed dividers
- 1 one subject notebooks
- pencils for completing assignments
- colored pens for correcting work
- 1 ruler with metric & customary measures
- protractor
- pencil pouch to keep supplies in

If any of these supplies would cause a financial hardship, please let me know and we will provide them for you.

Classroom Donations:

We would appreciate any of these items to keep the classroom as germ free as possible:

- Hand Sanitizer
- Box Kleenex/tissue
- Lysol Wipes

Each student will benefit from having his/her own scientific calculator. Graphing calculators are not required, but are acceptable.

The binder, tabbed dividers and single subject notebook are an integral part of the organizational system and will help insure your student's success. *We suggest a different color binder for each class.*

At Home Supplies:

- Ruler w/metric and customary measurement
- Protractor
- Compass
- Pencils
- Colored Pens
- Markers
- Lined paper
- Scissors

Parents can help by...

- ✓ Checking the **website** for weekly agendas including assignment dates and upcoming assessments.
- ✓ Checking **emails** for **information regarding classroom behavior and work completion.**
- ✓ Checking **MiStar** for assignment & assessment grades
- ✓ **Math Support:**
<https://connectedmath.msu.edu/families/>

Extra Help

- I offer extra support during class and I encourage students to ask questions during work time.
- I will be available most mornings in my classroom for specific questions in regard to homework.
- I offer after school support for specific homework questions on an as needed basis depending on my schedule. Students should not plan on staying after school for help unless a plan has been set up with the teacher before that school day has begun.
- It is the student's responsibility to let the teacher know if s/he has questions or is in need of extra support.
- Email is the best way to communicate these needs when students are at home.

Textbooks for each course:

Algebra 8- The Connected Math Project Series 3

- The different **booklets** for the series will be kept in the student binder when they are being used. Students **MAY NOT WRITE IN WORKBOOKS.**
- Online program via **MATHXL.com**

Pathfinder AGI- SIMMS text (same one being used at the high school for this course)
