Science Supplies

Please bring in your supplies to your by
Monday, September 12.

Student Supplies:

- 1 1.5-inch 3-ring binder with pockets
- 5 tabbed dividers
- 1 one subject notebook
- pencils for completing assignments
- colored pens for correcting work
- 1 ruler with metric measures
- pencil pouch to carry supplies in

If any of these supplies would cause a financial hardship, please let me know and we will provide them for you.

Classroom Donations:

We would appreciate any of these items to keep the classroom as germ free as possible:

- Hand Sanitizer
- Box Kleenex/tissue
- Lysol Wipes

Each student will benefit from having his/her own scientific calculator.

The binder, tabbed dividers and single subject notebook are an integral part of the organizational system and will help insure your student's success. ***We suggest a different color binder for each class.***

At Home Supplies:

- Ruler w/metric measurements
- Pencils
- Colored Pens
- Markers
- Lined paper
- Scissors

Parents can help by...

- ✓ Checking the **website** for weekly agendas including assignment dates and upcoming assessments.
- ✓ Checking **emails** for **information regarding classroom behavior and work completion.**
- ✓ Checking **MiStar** for assignment & assessment grades

Extra Help

- I offer extra support during class and I encourage students to ask questions during work time.
- I will be available most mornings in my classroom for specific questions in regard to homework.
- I offer after school support for specific homework questions on an as needed basis depending on my schedule.
- Students should not plan on staying after school for help unless a plan has been set up with the teacher before that school day has begun.
- It is the student's responsibility to let the teacher know if s/he has questions or is in need of extra support.
- Email is the best way to communicate these needs when students are at home.

Science Textbook(s):

Students will use multiple sources for reading about science. **Textbooks will remain in the classroom.** If a student needs to borrow a textbook for home use, s/he can check out a textbook from me at the end of the day to be returned before 1st hour begins the next day. Some of the books have an online component for which students will receive a username and password to utilize.
